

ALL ABOUT YOU

(written by Kenneth Cope)

*All about You, all about You
For me, Lord, it's all about You*

I may be a word on the street
But You're the talk of the town
I'm just a drop in the bucket
You're the flood coming down
I know You've said, that for You, it's all about us
And You prove it with all that You do
But, for me, Lord
For me, Lord, it's all about You

CHORUS:

*(All about You) All about You
Yeah, for me, Lord, it's all about You
(All about You) Yeah, all about You
Gonna tell the world all about You*

I may be a light on the hill
But You're the blazing of day
I'm just a piece of the puzzle
You're the Truth and the Way
And it's awkward for me to be lavished with praise
When it's You who should get Your due
So from this day on
I'm insisting it's all about You

REPEAT CHORUS

You're the One behind the sun and moon and starlit skies
You're the breath of all that runs and crawls and swims and flies
You're behind every tree, (behind) every mountain and sea (You hide)
And You've managed to keep from view (what I will do)
I'm gonna hold You up, gonna make a fuss
Gonna tell the world all about You

*Gonna tell the world all about You
Gonna tell the world all about You
(All about You) All about You
Gonna tell the world all about You
(All about You) Yeah, all about You
Gonna tell the world all about You
We're the reason You do what You do
But for me, Lord, it's all about You
You're the reason I do what I do
'Cause for me, Lord, it's all about You
You're the reason I do what I do
Yeah, for me, Lord, it's all about You
(All about You) So all about You
Yeah, for me, Lord, it's all about You*
